¹⁰ In our recent Riḍván message, we announced to the Bahá'í world the achievement of the goal of the current Five Year Plan—to establish no less than 1,500 intensive programmes of growth worldwide—and outlined in significant detail the developments that have taken place in the Bahá'í community at the level of culture over the last decade and a half. We expressed the hope that, during this final year of the Plan, the friends would bend their energies towards strengthening the pattern of expansion and consolidation that has now been everywhere established, in preparation for the Five Year Plan to be launched at Riḍván 2011. We are calling the Counsellors from all continents to the Bahá'í World Centre for a conference from 28 December 2010 to 1 January 2011, during which deliberations will be held on the features of the next Five Year Plan and on the decisive role the Counsellors are to play, together with their auxiliaries, in the critical period leading up to its launch and in the years that follow.

¹¹ It is our ardent prayer that the Blessed Beauty may vouchsafe unto these eighty-one souls His unfailing protection and unceasing confirmations as they arise to take up the high duties to which they have been called.
