

THE UNIVERSAL HOUSE OF JUSTICE

1982-09-20

Dear Bahá'í Friends,

Women's Seminar, submitted with your letter of 31 August 1982, and also a photograph of those attending.

342.2 Judging by the reactions of the participants, this seems to have been a very valuable experience for which there was a definite need. From the earliest days of the Faith women have played a prominent role, and especially in the West where in the beginning their influence predominated. It is the hope of the House of Justice that the Bahá'í women of Denmark will exert a growing influence on the community, increasing its spirituality, forging stronger ties of unity, consolidating its administrative institutions and increasing the rate of its expansion throughout Danish society.

342.3 The House of Justice assures your Assembly of its prayers at the Sacred Threshold for the confirmation of your noble endeavors and for the blessings of Bahá'u'lláh to reinforce the efforts of every member of the Danish Bahá'í community.

With loving Bahá'í greetings,
