

THE UNIVERSAL HOUSE OF JUSTICE

1987-06-06

To all National Spiritual Assemblies dear b ahá'í

Among the Six year plan goals for collaboration between national communities, are those concerned with the bahá'í education of our children.

The goals set out in the attached statement are of three kinds: goals for systematic teacher training, for the preparation of lesson plans for all age groups, and for the creation of teaching materials to support the educational process.

The group of national communities summoned to this vital and long overdue program of collaboration are those who are already known to be advanced in providing systematic child education, but also include some few now asked to make a positive contribution to this cooperative venture.²⁷ .1
